

Nature's Carpet Green Spectrum

In today's world defining the term "Green" can be difficult. Therefore, we have created the "Green Spectrum" to clarify the varying degrees of our earth-friendly flooring.

Dark Green:

- 100% undyed wool pile
- No insecticides
- No chemical additives
- Natural jute secondary backing
- Natural latex adhesive
- 98% biodegradable
- Ultra-low toxicity

Medium Green:

- 100% wool pile
- Undyed or stable low VOC dyes
- Insect resistant
- Natural jute secondary backing
- Very low toxicity

Light Green:

- Wool or wool-blend pile
- Stable low VOC dyes
- Synthetic or jute secondary backing
- Low toxicity

Additionally, every Nature's Carpet shares these characteristics:

- Durable and long-lasting
- Soft & comfortable
- Excellent sound absorption and insulation
- Filters allergens and dust
- Made of wool – a rapidly renewable resource
- International certification compliant:
 - o "GUT" – Europe
 - o "Green Star" – Australia/New Zealand
 - o "LEED" – North America

INSTALLATION: It is recommended that this carpet be installed in accordance with CRI Guidelines unless otherwise specified. See www.carpet-rug.org for details.

COLOUR VARIATION: Colour may vary between dye lots, most notably in undyed wools.

MATERIAL VARIATION: Backing or other materials may change without notice depending on raw material availability.

VACUUMING & MAINTENANCE: Please refer to the "Wool Carpet Care & Maintenance Guide" provided by Colin Campbell & Sons Ltd. A wool-safe spot-cleaner is also available.

SPECIFICATIONS

Product Name:	TURKESTAN
Green Spectrum:	MEDIUM GREEN
Style:	BERBER LOOP
Pile Content:	100% WOOL
Width:	12'
Insect Resist:	YES
